

**BRUSH HOLDING PLATE FOR AN ELECTRIC MOTOR, CORRESPONDING  
ELECTRIC MOTOR AND ASSEMBLY METHOD**

**ABSTRACT**

The invention relates to a brush holding plate comprising tubes and brushes which are guided into said tubes. The brushes are guided in a spring-loaded manner in the radial direction towards a central opening in the brush holding plate. The invention is characterized in that the tubes are arranged on the brush holding plate in such a way that they can be displaced from a radially outer pre-assembly position into a radially inner end assembly position.
